FS2 : expressive arts and design

E-safety: pause for people

Using technology is great but sometimes we need to take a break from it even when we don't want to. Follow the guidance of **pause**, breath and finish up.

Vocabulary

pause	Stop doing what you are doing and take a breath.	pattern	Use of colour and shape tools to make a repeated design.
tools	Needs batteries or electricity to work	pointillist	Dots of colour using paint
Fill tool	A shape can be coloured in using this tool.	image	Picture or photo you create digitally or on paper

What?

1

Digital painting involves using **tools** to draw lines and shapes. When drawn, shapes can be coloured in with the **fill** tool. Mistakes can be removed with the undo button.

2

Artists like Henri Matisse made lots of patterns using shape and colour. Can this be done on a painting programme? You can use a device to recreate **patterns** similar to him with a snail pattern.

3

Paintings can show emotion through colour and shapes choices. Kandinsky and Seurat did just that. Use the **pointillist** approach with your paint tools to create your own **image**.

4

Pictures can be created in lots of different ways. Paper and Computer are just two ways but which way is best and why?
