

Poulton Lancelyn Primary School

Dear Parents,

19th April 2018

On the 10th of May Year 4 will be taking part in a mapping workshop at school. This links with our Geography curriculum mapping skills.

Niantic Labs, the people behind Pokémon Go, are sponsoring this activity, therefore there is no cost to school at all, however the children do not need to access the game, it is just being used as a tool to look at maps, co-ordinates, history and heritage. We will be talking about important places and what makes a place important to individuals, and using compasses to look at cardinal points and directions. We would like to assure you that we are not encouraging the use of Pokémon Go, it is just a tool to engage the children in using maps.

Yours sincerely,

Mrs Higgins-Carter

Mrs Jackson
