Year 1
technology
around us

E-safety: Using a range of technology safely

WE use several types of technology but must use it safely at school and at home.
There are rules we must follow to stay safe **online** (linked to lesson 3).

Vocabulary

Information Technology	System used to store and access information, known as I.T.	safety	Following rules online with technology use to stay safe.
computer	A device used to access the information online,	Coding blocks	Statement or instruction for a computer
barcodes	Code made of lines and numbers so a machine can read it.	online	Using the internet.

What?

1

Different devices can be used in our school to access **information technology**. **Computers** are one of those devices that we use.

2

Technology can be used in many places around us not just school. There are different ways we use technology including **barcodes** to help identify objects.

3

When we use technology, we have to do it safely. We need to follow rules to protect our **safety** when online.

4

Technology can help us in varied ways and we can use it in varied activities too.

5+6

Coding is language **blocks** used to control actions on a computer so that characters can move. .
