

Poulton Lancelyn Primary School

Week Ahead Information – w/c 22nd January 2024

Whole School Attendance – 97.22%

Reminders	
Whole School Messages	The RSPB are running their annual Big Schools' Birdwatch. As part of this project, we will be recording which birds we see in school, your child can record any bird they see at home, and you can also find instructions on how to make a bird cake which can be found on Seesaw. We would like to see pictures of your child bird watching and any birds they can see. Good luck!
F1	NNM = 98.4% NAMC = 99.53%
F2	F2AG = 95% F2KE = 94.81% Unfortunately, lots of bags are now unable to fit inside the children's trays due to the size and amount of keyrings they have on them. Due to this reason, the children are permitted to only have one small keyring on their bags. Next week the children will be taking part in a computing session with Hi-Impact. We will be using different robot toys to explore early coding. On Friday we have a workshop focussing on the development of motor skills. The children will take part in this session too and will show you some of the activities they do in school to develop their motor skills.
Y1	1SH/LS = 97.08% 1CR = 99.26% In order to support your child with their weekly spellings, please can we remind you to access seesaw to see the spellings displayed. If you are having any trouble accessing this, please let us know.
Y2	2LR = 97.41% 2THC = 98.15% No update this week.
Y3	3LS = 96.77% 3MN = 97.78% Year 3 will be making their own 3D sculptures this term out of recycled materials. Could you please collect any materials you have around the house or would usually throw away such as yogurt pots, juice cartons and lids from bottles? Your child can bring recycled materials into school throughout the next coming weeks and will be stored in their classrooms. If your child has collected a material they personally want to use for their own art piece, could they please bring the material/s in a clearly labelled bag with their name on it?

Y4	<p>4AS = 96.42% 4AD/FF = 100%</p> <p>We are seeing an increasing amount of pencil cases and other items from home coming into school. We ask that these items be kept at home please, as we have all the necessary equipment in school. They can act as a distraction and cause issues if items are borrowed or lost. Thank you for your support.</p> <p>A reminder to encourage the children to continue practising their times tables at home. https://mathsframe.co.uk/en/resources/resource/477/Multiplication-Tables-Check is a good website for pupils to test themselves at home and identify any times tables they need further support with. TT Rockstars is also a good resource to use an at home. Alternatively, pupils could write out or chant their times tables if they don't have access to a device. Thank you for your support at home.</p>
Y5	<p>5BG/GC = 96.06% 5AW 93.91%</p>
Y6	<p>6JC = 100% 6ZG = 95.49%</p> <p>No Update this week.</p>
