

Mould Investigation – Conclusion

Conclusion: Questions you could answer in your conclusion:

- Which location grew mould first?
- Why do you think that location went mouldy first?
- Which location grew the most mould at the end of your investigation?
- Why do you think that location grew the most mould?
- Which location grew the least mould?
- What do you think slowed down the growth rate of mould in this location?
- Where would you store your bread in future?

[illegible]
