

Whole, Halves & Quarters

Before we start, Let's do our MENTAL STARTER!

Section 1

How many apples are there altogether?

Today we will Learn about
Whole, halves and quarters.

Play the Half/Quarter Video

<https://www.youtube.com/watch?v=ZLxbPQRlyjw>

What is a
whole?

A whole is all
of something!

What is a Half?

A half is 2 equal parts.

Can you give examples
using the word half?

2 $\frac{1}{2}$ parts make a whole object

$$\frac{1}{2} + \frac{1}{2} = 1$$

$\frac{1}{2}$

This is how a half
looks like in
written number
form!

What
shape is
this?

Draw a line
on this shape
to half it and
write $\frac{1}{2}$ on
each part.

How many
parts does
this shape
have now?

Are they
equal parts?

What shape is this?

How many parts does this shape have now?

Are they equal parts?

Draw a line on this shape to half it and write $\frac{1}{2}$ on each part.

What
shape is
this?

Draw a line
on this shape
to half it and
write $\frac{1}{2}$ on
each part.

How many
parts does
this shape
have now?

Are they
equal parts?

What is a Quarter?

When you
divide into 4
equal parts.

Can you give
examples using
the word quarter?

When you
half and half
again.

$$\frac{1}{4}$$

This is how a
quarter looks
like in written
number form!

**How many lines do you draw to make a shape
into a quarter?**

What
shape is
this?

Draw a line
to show a
quarter and
write $\frac{1}{4}$ on
each part.

How many
parts does
this shape
have now?

Are they
equal parts?

What
shape is
this?

How many
parts does
this shape
have now?

Are they
equal parts?

Draw a line
to show a
quarter and
write $\frac{1}{2}$ on
each part.

What
shape is
this?

Draw a line
to show a
quarter and
write $\frac{1}{2}$ on
each part.

How many
parts does
this shape
have now?

Are they
equal parts?

I WANT
SOME!

Kevin want's some of Bob's sandwich. What should Bob do? Half or quarter it?

If Stuart wants to share his food between 4 minions. How should he share it? Half or quarter it?

**Bob want's some of Kevin's
banana. What should Kevin
do? Half or quarter it?**
