

To add suffixes to change nouns into verbs

First, sort the words into the correct suffix columns (some words might fit into more than one box!). I have started some for you.

popular	advert	captive	pure	computer	equal
active	author	real	valid	glory	false
intense	hyphen	horror	liquid	glamour	pressure

-ate	-ise	-ify
hyphenate	realise	glorify

Now, write five sentences which include at least one of these words in each. Can you apply these words into extended pieces of writing?
