Lila and the Secret of Rain

Reviewed by: Albie George Colgrave

Lila and the Secret of Rain is a fantastic book because you can learn things. It is also very adventurous. David Conway uses descriptive language through out the book.

It is about a brave, sneaky and fantastic girl. I like this book because it is sad at the start and happy and mysterious at the end. The best bit is when Lila climbs up the mountain and she never gave up. If you want to read the book buy it! Buy the book. My favourite part of the story is when they all had a party. The most exciting part of the book was when it rained because I felt thoughtful. I like the way David Conway matches the words to the pictures. What an incredible journey Lila went on! I recommend this book can be for children from 7-62.

If you want the book get it because it is very adventurous.
